Editorial

We are very happy to present you the annual report of Academic year 2009-2010 of Swami Ramanand Teerth Marathwada University. Education is an important instrument to enrich human mind and personality. Higher education develops the life style of common man. Therefore University and affiliated colleges are conducting many student oriented projects. The physical and qualitative development of University is the result of Hon. Vice Chancellor Dr. Sarjerao Nimse's exceptional and outstanding leadership.

We can see the change at every sphere of life which is the result of dynamic progress of science, technology and communication. Globalization has changed the traditional old methods and more opportunities. In these circumstances University updated syllabus and made more constructive and structural changes. Hon. Vice Chancellor personally thinks that overall personal development of student is more important than mere bookish merit. Therefore more fundamental facilities are being provided to the students. We believe that University is making students more perfect for the world-competition.

University granted autonomy to the educational schools so that they may necessarily change syllabus whenever they need and may form more transparency in it. In this way we believe that merit of students will increase day by day. Various scholarships are being granted to students on University level. Today we can see many students are working on various research projects. Now we can see that schools of Language, Literature and Cultural Studies, Media Studies, Education Studies, etc are working in separate buildings. Soon we can see a grand library in campus.

University made contracts with various institutions and Universities (MOU) to grant more opportunities of employment to the students. In University's Latur sub -centre various physical and technical development are in progress. University is ready to face NAC committee. In that sense various projects are in progress.

We believe that you will welcome this Annual report which highlights qualitative progress and future plans of University.

Foreword by Hon. Vice Chancellor

I am immensely happy to present you this report of 2009-10 of Swami Ramanand Teerth Marathwada University. In the report of this Academic year one can see the projects and activities of University and its affiliated colleges. This report is an important event which reveals the educational and qualitative progress of University and affiliated colleges.

University tried its best to provide modern courses and syllabus to make students progressive and modest. In today's competitive age I heartily think that student should survive with its qualitative power.

I was optimistic about the progress when I accepted the post of vice chancellor in July 2008. Today one can see many projects are being completed rapidly. I am happy to see continuous progress of University towards excellence. Annual report is the mirror of the projects of any institution. I found this report dynamic and inspiring in almost all levels.

Today's education must be of international standard. The research project should enrich the society, nation and the world. In this sense our university is trying its best.

University is cautious about the quality of teacher, education research syllabus and sports and cultural programme. University tries its best to make its level an international one. I believe the content of this report will please you.

Every student of this University must be ready for international competition. University will help every student to make him independent, active and optimistic. With the facility of Library, University is providing computers, internet, laboratories, language-laboratory, education of Foreign Languages and programs of soft skills and personal its Development. We believe that student must be all-rounder and prompt in all levels of competition. I assert here that University is committed to provide the best education to students.

I am happy that University has acquired satisfactory progress. University also tried its best to keep the standard of syllabus international. We should perform our best; that's why we can see many Foreign students are attracted towards our University.

University has inaugurated many new projects in the field of knowledge, science and technology. University is focusing towards the examination method to make it more transparent. University is trying its best to make contracts with more Foreign Universities to enforce many government schemes, to award scholarships to virtuous students provide more facilities to campus-students and college-students. We are making education more student-centred and society-centred. Society and institutions are helping us in every phase. I am happy that university aptly granted autonomy to the departments and institutions which are coping with social prospects.

Scholarship is enriching the units like person, society, education and nation. In this way process of learning is being more dynamic and more effective. And this Annual report is the sign of this progress.

Dr. Sarjerao Nimse.
Vice chancellor.

12th Convocation Programme

(Tuesday, 23 March 2010)

Presidential Speech

Dr. Sarjerao Nimse

Vice Chancellor

Chief guest of 12th convocation programme of Swami Ramanand Teerth Marathwada University Hon. Dr. Manikrao Salunkhe, respected representatives, respected members, directors, principals, professors, of University and affiliated college officers, staff, journalists, and awardee student and Friends

In this programme I congratulate students to whom various degrees are to be awarded. I believe that they will use their degrees for their future life and for the society.

We are honoured that vice chancellor of Rajasthan Central University Hon. Dr. Manikrao Salunkhe is our guest of this function. He was also the vice chancellor of Shivaji University, Kolhapur. He did his best to enrich the standard of Shivaji University.

In this Academic year University have participated in inter-Universities level the competitions like Awishkar, Ashwamegh, Indradhanushya started by Hon. Chancellor. I congratulate to those who have won many prizes. I congratulate to all those who have participated in Youth Festival -Prerna-2009 held in Nutan Mahavidyalaya, Selu.

University and its colleges are trying their best for proliferation of higher education, in inventing new episteme and educational expansion. We believe that students will use the knowledge and intelligence for the sake of society and nation. University is trying its best to reevaluate the syllabus and to accept change in examination system. University has also accepted the methods of automation to declare results in times.

We believe that in the age of liberalization we are making our students more firm for the global competition. We also believe that he can make his own status, his own identity in the society. University is planning to make more effective changes in education system and syllabus so that students through their knowledge and research will try to make nation more developed and stronger.

We can see many paradoxes in job market. There are numerous vacancies waiting for skilled manpower, at the other side we can see thousands of degree-holders are unemployed. With the lack of sufficient income sources they are living baser life. At some level some wrong educational agendas are responsible for this. Therefore university is providing many job-oriented diplomas and certificate -courses. University is also providing freely soft-skill courses to the teacher-staff of every affiliated college. I appeal to colleges to help us with their co-operation.

We try to revise regularly the syllabus of Graduate and Post Graduate courses. Credit system is being applied in University campus. Soon it will be applied in colleges for both UG and PG.

University is aware of changes on national level. At central level we can see the whole matrix of higher education is being changed. The National Commission for Higher Education and Research Bill, 2010 is coming in the parliament. Therefore a radical change in whole administration of higher education is necessary. In higher education more openness and transparency is needed. Universities and colleges are to be granted more autonomy. There might be elasticity in of higher education. Under 11th Five years plan there would be more Central Universities and more educational institutions. It is clear that their status would be much better than the State-Universities. We have to compete with many good State

Universities and National Universities. There are many virtuous students who want to be admitted for higher education in S.R.T.M.University.

For that we are trying our best. Therefore we are inaugurating new educational projects in Nanded University campus and Latur sub-centre.

Today we can see at international level the excellence of research carried out in many multi disciplinary and interdisciplinary areas. It is universally true that didactic and economically helpful research is the need of the age. To these researches our university will always help and inspire to the research-scholars . For this reason many national and international universities we have tied with contracts. One part of this project is the inauguration of Foreign Language studies centre in School of Language and Literature.

Our university is applying the constitutional guidelines in higher education by providing facilities to everyone. Guidance for NET/ SET is being provided. From April 2010 with the help of Yashada Guidance for competitive exams is also provided to students. With the new guidelines of UGC PET exam is going to be held for Ph.D. To make student economically self sufficient we are running Earn and Learn scheme. Orchards and herbal plants are being cultivated to beautify the campus and to make University economically stable.

University is trying its best to make educational-work more transparent, efficient, competent, and responsible. We think this is our prime responsibility Successful students must not forget their Alma Mater. In Foreign countries many Universities are helped economically by former students. Many universities are attracting towards our country. I hope both Foreign students and University will help our University with their knowledge and action.

Best wishes to all degree-holders.

12th Convocation Programme

Tuesday, 23/03/2010

Chief Guest of the programme

Prof. Dr. Manikrao Salunkhe

Vice Chancellor

Rajasthan Central University, Rajasthan.

Vice Chancellor of Swami Ramanand Teerth Marathwada University prof. Sarjerao Nimse, Deans of Faculties, Senate, Academic Council and Management Council's Member, Student Council, Degree holders and friends.

In this convocation programme of Swami Ramanand Teerth Marathwada University, I congratulate all graduate students and give you my best wishes for future.

I am very happy to be a part of 12th convocation programme. Nanded region is famous for the social and educational changes. The tradition of tolerance can be seen in this region. This region became sacred with the presence of Sri Guru Govind Singh Ji. I respect Swami Ramanand Teerth whose name is given to this University. Whole India sees him as a great freedom fighter, educationalist and philosopher. He believed that education is essential for personal development and an instrument to change and to rebuild a nation.

Swamiji established colleges in Ambajogai and Nanded in 50s. He also played an important role for establishment Marathwada University in Aurangabad. The roots of educational tree laid in his visionary thoughts.

This University was a sub-centre of Dr. Babasaheb Ambedkar University Swami Ramanand Teerth Marathwada University was established in 1994. We can see the exceptional educational progress of this University in short time-period of 16 years. It's a short time to establish and have a stability for any university. But this University performed an outstanding educational qualification.

Friends we have just entered in 21st century. In today's age of globalization we can see radical change in every sphere of life. Today's traditional Universities are facing new challenges throughout the world. I believe this University too will cope with these changes and will amend in the basic structures. I also believe that our University will mould the students who with their skill and higher education will successfully survive in the global competition. I believe that University in future will achieve its goal. Our University has acquired new concepts and new syllabus. Therefore University has always given privilege to the concept of 'school'. The school concept reevaluates inter-disciplinary studies of various branches of knowledge. It's need of every University throughout the nation to formulate society-oriented syllabus, to apply it practically and hence to enrich the standard of education.

In this period we should change the traditional structures. To fulfill new necessity our university must have to update its paradigms. With imaginative power and excellence student should give his best. We see the changes everywhere in the world. Even education field is also not exception for that. We must not take these changes negatively. Students must adopt the new changes and perform their best. We should discard old traditional ways and should walk on new hopeful roads. One should welcome the new invention, new perspectives.

One should get rid of the negative complexes like: I came from rural background or I don't have soft skill and communication skill. I personally believe that rural students are hard working, and adaptive.

We should not be afraid of new dimension of knowledge like technical field and BPO sector. Though we belong to Nanded or Ahmedpur, we must learn the universal language and skills. And universities must help student in this aspect. In these new circumstances

Universities have to play major role. Universities should introduce students new fields of knowledge. Universities should form their own syllabus specially related to Engineering and Medical. University must give importance to interdisciplinary courses. Even the students of chemistry must be taught the knowledge of languages and management.

Friends, University region is known as famine-stricken and backward. Education system of this region faces the problems like lack of natural resources and low development. In this region many people are socially and economically backward. We must help this class of people so that they can be the part of mainstream. We must support this mass to build the nation and to establish equality in society. Universities must help these students by providing educational facilities, founding various projects, supplying technical help, awarding scholarships and providing special coaching classes. We must act as early as possible. Majority of the students came from lower strata of the society. I know they have an exceptional will power and they are ready for any hard work. They know education is the most important instrument to change their life. They always want to do something new. In this world of information and technology I believe that they will be successful in every sphere of life.

Today we can see many new challenges in front of both urban and rural University. I know that this University too facing many challenges. I think challenges are greater to those Universities who are newly founded because they have to spend their greater energy in physical establishment and by providing fundamental facilities. I believe that Swami Ramanand Teerth Marathwada University will surpass all these difficulties and prove it educationally virtuous. We must have more new educational courses. There should be more courses in the fields like science and technology, agriculture and local industries. There should be the method of credit system evaluation. Many small degree courses are needed.

I want to add one more thing. Recently we hear the value of sustainable development. University must think in this matter. Education has two chief functions, first is to make human life more comfortable and second is to help the society-oriented project for a long time. In this way education will be more fruitful. We must cultivate the fields in this way that lack of water will not be the problem of agriculture. For this the facilities of irrigation must be better. In Nanded region we can see many new industrial projects. In this circumstances University must introduce students various new courses and methods specially related to management. In future these courses will be fruitful to this backward area. It is the responsibility of educational field to provide manpower and knowledge-skill. And we must be ready for this.

In today's new dimension of higher education we notice that distance education has achieved higher reputation. University must help those who are not able to get higher education. Universities must help them to be a part of main-stream. The poor class, need young people, and women are those units which are generally deprived of higher education. University must try their best to make available more distance courses for these strata of society. This is the need of the time. Special provision must be arranged for distance education. These distance education centre must be connected to each other with more advanced technology. University should provide advanced SIM facility to those centres. I feel very proud to assert that I personally worked for the radical changes in both Shivaji University and Rajasthan central university. I was overwhelmed to have the positive response.

Friends, I want to speak about the young graduate students who are just honoured with various degrees. Young generation is an essential part of the progress of this country. University helps in the construction of nation and in the progress of society. I believe that students with their knowledge and confidence will able to stand in global competition.

Without education human life is incomplete. In this twenty first century it's duty of this young generation to make a new India.

As Kusumagraj says,

था या जुळ्या सा ताला
अंत आमची ध्येयासक्ती अंत अ आशा
फिरा तुला पामराला

As Kusumagraja said today's youth with the help of knowledge and confidence should face many challenges. I believe that like Columbus, you will also try to provide your life a goal.

Keshavasuta says,

प्राप्त तल हा विशाल भूधर, सुंदर ले ती तयात गोदा

Like this line of Keshavsuta we should dream of new life, new aspirations for that I give my best wishes.

The Special Cell

The Special Cell in the SRTM University has been established to cater to the needs of lecturers and students in the affiliated colleges and the university. Execution and implementation of the directions of the UGC and the State Government issues through the ordinances is the prime function of the cell.

The work-report of the cell presented covers the period from July 01, 2009 to June 30, 2010. According to the posts on and off the campus it also shows the steps taken by the cell to fill up the vacancies related in the reserved categories including the posts for the physically challenged.

Due to the absence of the full fledged state governments employment and information centre, the cell has record/register the names of the students, of all categories with the mobile registration squad that visit the University on the fifth day of every month. During the work report period 151 registrations.

During the report period 199 proposals for the post of Principal and 192 for the post of teacher have been cleared. The cell received three (03) complaints from the employees socially backward in the affiliated colleges. Initiating inquiry into the cases, an attempt has been made to impart justice to the appellants. The vacant posts of reserved backward category are 167, and the process of filling it is underway.

Of the candidates belonging to the reserved categories have been done. The list of eligible candidates with the cell is sent to the college where recruitments are available.

The Special Cell standing Committee guides help the cell to settle disputes as and when they arise. During the reported period two (02) of the committee were held. The mention of the reservation of a post, instead of mention of against the post put as the footnote.

A committee as per the guidance of the state government has been established to monitor the appointment of teaching /non-teaching staff at the university and college level establishments.

A workshop as per the government order dt. 5.11.2009, for the university/college representatives regarding the preparation of the roster was conducted on March 2010. The participants were provided with the guidelines for preparing roster and the list of documents essential, as directed by the Honorable Assistant Commissioner Aurangabad preparation of the roster is underway. The provision of punishment if failed to fill up the reserved categories post has been communicated to all the concerned.

Examination Section

Since the establishment of the University, the Examination department through novel concepts, transparency and adhering the rules, has earned an admissible image. Appointment of ACS and Fling Squad

The appointments of the ACS and the flying squad has helped enormous to curb the malpractices of copying. It is developing among student the habit academic sincerity.

Sensitive Examination Center

The college examination centers which failed to curb copying are under the vigilant eye of the department. During the summer 2010 examination seating vigilant squad were constituted. It helped a lot in controlling the practice of copying.

Policy against copying

The university since its establishment has taken a tough stand against the practice of copying. The nature of the policy against it is formulated in tune with the stakeholders like, Principal, Lecturers, members of college management and students. The department has succeeded considerably in curbing the practice. In the event of such a complaint, the case is forwarded to the Honorable BoE and as per its direction/decision, action is taken against the quality.

Transparency

Though equipped with insufficient staff, the examination centre has been successful in clearing the results in maximum 45 days, maintaining transparency.

Use of the Information Technology

All the important works related to examination such as preparing the Admitcard, declaring the result, preparing the statement of marks and providing the Seating Arrangements to the different centers are carried out by the computer cell in the center.

The information related to examination, for the general public, is displayed on the university website www.srtmun.ac.in/www.srtmun.org the site in the current academic year has been visited by more than one Lac students.

Central Assessment Programme (CAP)

Since October/November 2000, the central Assessment programme has been conducted in the administrative building of the university. The assessment of professional/non-professional answers books is conducted at CAP.

The scheme has benefited in terms of saving money and maintaining the performance needed. There has been less complaints from the students regarding their results. The University provides the examiners with lodging and boarding on the campus, once to which the time and money of the teachers is saved and he/she could give work time to the work.

School of Chemical Sciences

The School of Chemical Sciences has its own building of 550 sq. m. with all the chemical labs fully furnished. The School of Chemical offers Post graduate courses in Pure and Interdisciplinary subjects like Organic Chemistry, Medicinal Chemistry, Industrial Chemistry, Polymer Chemistry, Physical Chemistry and Analytical Chemistry. The School has introduced M.Sc. in Polymer, Physical and Analytical Chemistry in 2009.

Research Projects:

- Dr.P.K.Zubhaidha has been awarded a major research project entitled "Evaluation of Herbal Constituents for Aldose reductase activity", by UGC with an outlay of 3.00 lakhs.
- Dr.N.N.Karade has been awarded a major research project entitled "Chemical Transformations Induced by Hypervalent Iodine" by DST with an outlay of Rs. 8.4 lakhs.
- Dr.N.N.Karade has been awarded a major research project entitled "Development of Novel Multicomponent Reactions for Synthesis of Heterocyclic Compounds" by UGC with an outlay of Rs. 6.676 lakhs.
- Dr.S.S.Makone has been awarded a major research project entitled "Organic Reactions in Aqueous Media" by DST with an outlay of Rs. 18.7 lakhs.
- Dr.V.T.Kamble has been awarded a major research project entitled "Solid super acid reagents for synthesis of biological active compounds" by DST with an outlay of Rs. 17 lakhs.
- Dr.G.K.Chaitanya has been awarded a minor research project entitled "Electronic structure of substituted Squarylium Dyc derivatives: A Computational study" by UGC with an outlay of Rs. 1 lakh.

Seminar/Workshop/Conference Organised:

- Drug design ó Insilco Approach 2009

Collaborations & MoU:

Dr. G.K. Chaitanya and Mr. A.L. Puyad are collaborating with IICT, Hyderabad in Computational chemistry.

Dr. P.K. Zubaidha is collaborating with Osmania University, Hyderabad in Biodiesel studies. She is also collaborating with University of Athens, Greece on Anionic Polymerisation and with School of Chemistry, University of Melbourne, Australia in Sonochemistry.

Awards/Honours/Fellowships:

- Dr.S.S.Makone –Best paper presentation award by Osmania University, Hyderabad (A.P) Honoured by Vice Chancellor on Women’s Day 8th March.

School of Earth Sciences

The School of Earth Sciences offers courses in M.Sc. in Geology and Environmental Science and M.A. in Geography at master’s level. The School also offers M.Phil. course in Geography and Environmental Science. The School has been sanctioned a course on PG diploma in Geoinformatics under UGC Innovative Program and has been funded with 50 lakh rupees. All the six classrooms are equipped with LCD Projectors. The School has strengthened its collaborations with research Institutes and Industry by signing MoU’s with National Geophysical Research Institute, Hyderabad and M/s Integrated Geoinstruments Services Pvt. Ltd. Hyderabad and Groundwater survey and Development Agency (GSDA, Pune), Government of Maharashtra

Research Projects:

- D.B. Panaskar has been awarded a project entitled –Influence of Aquifer Lithology on the Groundwater Quality with special reference to Fluoride Contamination, Bhokar Area, Dist. Nanded, Maharashtra with an outlay of Rs. 13.52 lakhs.
- Dr. D.B. Panaskar has been awarded a minor project entitled –Geological and Soil studies of Nanded, Maharashtra with special reference to seismicity– with an outlay of Rs. 1 lakh.
- Shri. T. Vijay Kumar has been awarded a minor research project entitled –Monitoring of Seismicity pattern and Magnitudes around Nanded City, Maharashtra– from University funds with an outlay of Rs. 1 lakh.
- Shri. V. M. Wagh has been awarded a minor project entitled –Impact of Agricultural practices on Groundwater Quality of Nanded Tehsil, Marathwada, Maharashtra– with an outlay of Rs. 60,000/- from University funds.

D.B. Panaskar has published a paper entitled Resolution of fresh water and Saline water Aquifers by composite Geophysical data analysis methods, Hydrological Science Journal.

D.B.Panaskar has chaired a Technical session in National Conference on Natural Resource Management for sustainable Development held at North Maharashtra University, Jalgaon.

D.B.Panaskar has presented an abstract entitled "Fluoride contamination status of Groundwater around Bhokar area, Dist. Nanded, Maharashtra at National Conference on Groundwater Resource Development and Management in Hard Rocks held at Pune University.

Seminar Organised:

Dr. H.S. Patode

A National Seminar on Exploration Techniques in Sustainable Management of Groundwater was organised jointly by the School and Department of Geology, N.E.S. Science College, Nanded in collaboration with Mineralogical Society of India, Mysore.

Shri. T. Vijay Kumar Led University Team at Avishkar Research Festival (Inter University) at Solapur (11-13 January), 2010 and our University's team has won first Prize in commerce for Research Students Category.

1) Participation in conclave:

Faculty members and Students from school of Earth Sciences participated in Third Science Conclave: A Congregation of Nobel Laureates organized at the Indian Institute of Information Technology, Allahabad during December 8-14, 2009.

Organized a study tour of M.Sc. Environment, M.Sc. Geology, and M.A. Geography students, during 21st Feb to 1st March 2010 and visited many places like Kolhapur, Dajipur Sanctuary, Goa, NIO, Goa University, Konkan, Mhabaleshwar etc. The students were accompanied by Shri Wagh & Dr. Patode H.S.

Organized guest lecture series on (18th & 19th March 2010) for the students of M.Sc. Environmental Science, Geology and M.A. Geography.

School of Computational Sciences

The School is offering courses in M.Sc. Computer Application, M.Sc. Networking and MCA. The school of computational Sciences has its own building with basic necessary infrastructure and facilities. The school is having an e-book library and also provides online resource material. The school is having a Wifi Connectivity with 100 Mbps.

The faculties from the school have reported their active participation at the international conference on computer science - CSCIT-2010, organized by Yeshwant Mahavidyalaya, Nanded in Jan. 2010. Four research papers from the faculties of school have been published there.

Research Project

Mr. Nilesh Dehmukh, "Modeling Teaching practices based on mentoring principles, transitional analysis and Learning tree for effective faculty development programs: A study" NCERT, New Delhi.

Mr. Nilesh Deshmukh is working on a project entitled "Assessment of Quality of Elementary Education in Nanded District" funded by ASU with an outlay of 1.1 lakhs.

Foreign Visit

Dr. S.D. Khamitkar, S.L. Lokhande and P.U. Bhalchandra presented their research work at International Conference - ICGE-RICT-2010, University of G.M.

Yogyakarta, Indonesia. This conference was organized under Asia Net Project initiated by Japan, during 2-5 March 2010.

- In tune with the suggestions of NAAC, in 2007, School of Media Studies started the Credit System {credit grade based performance and assessment (CGPA) system }in the curriculum design from the year 2007-08.

- Under the teaching aid school will soon have 2 OHP in class room.

All the faculty members use audio and visual aids while delivering the lectures in easily understandable way. To inculcate research oriented studies, project work was made mandatory for Post Graduate students in the School of Media Studies. These projects are not mere compilations of existing data but are soundly based on new data generated exclusively for the project.

Field Tours, Industrial Training, Research Lab Visits:

The students visit regularly to field tours and media industry.

1. Students visited e-TV Network Hyderabad
2. Industrial Tour was taken to Pune: Sakal office, DNA office
3. Students visit regularly to Nanded Aakashvani and media offices.

Research Projects:

Dr. D. M. Shinde - A Study of Multimedia presentation application for communication Journalism in Marathwada funded by SRTM University.

Shri. R. N.Gonarkar - A Critical analysis of atrocities on women in Marathwada region based on published reports in print media funded by SRTM University.

Seminar/Symposia organised:

The School has organised the following seminars and invited experts in the discipline for the benefit of the students of the school.

Film Appreciation: Workshop for Youths - 9th August 2010

Placement Opportunities in USA - 15th Sept. 2010

Patraakaritha kaal ani Aaj - 08 & 09 Feb. 2010

Publication:

Dr. Dipak Shinde and Shri. Sachin Narangale has published a paper on A Study of Multimedia Presentation Application for Communication in Journalism in Marathwada.

Shri. Rajendra Gonarkar, has published a paper on "Critical Analysis of Violence on Women as depicted in newspapers of Marathwada".

Dr. Dipak Shinde, has published 2 books and 3 Research Articles in journals of National repute

School of Physical Sciences

The school of Physical Sciences has produced 15 Ph.D. The School has received financial assistance of Rs. 55.00 Lakhs under FIST Programme from DST, New Delhi for setting up Astronomical observatory and High performance computing facility.

Research projects being conducted in our School by various faculty members are as follows.

1. "Anomalous Phenomena in C₃H and C₃D cyclic molecules", by ISRO, Bangalore, Rs. 7.24 Lakhs, PI: Prof. Suresh Chandra
2. "Radiative Transition Probabilities and Anomalous Absorption by Molecules in Cool Cosmic Objects" by DST. (Rs.-7,62,000/-). PI: Prof. Suresh Chandra

3. Synthesis of HAP Bio-Ceramics Nano-materials and study of gas sensing and dielectric properties, funded by UGC, New Delhi, Rs. 11.00 lakhs,
PI: Prof. R S Khairnar
4. Nanomaterial Hydroxy Apatites as a CO gas sensor, funded by DST, New Delhi (Rs. 26.00 lakhs),
PI: Prof. R S Khairnar
5. Study of Ion exchanged HAp and its Dielectric Properties for Tissue Growth in Simulated Body fluid, UGC, N Delhi, Three Years (2009-2012) , Amount: Rs. 7.89 Lakhs,
PI: Prof. R S Khairnar
6. High frequency dielectric spectroscopy of polymers, biomolecules and polar liquids, DST, Rs. 38.0 Lakhs,
PI: Dr. A C Kumbharkhane.
7. Morphological & spectral properties of hot gas in early-type galaxies ISRO, Bangalore Rs. 7.00 Lakhs
PI. Dr. M. K. Patil
8. Optical and X-ray properties of early-type galaxies, UGC, New Delhi, Rs. 9.63 lakhs, PI: Dr M K Patil
9. Computational study of hydrogen storage capacity of organo metallic compounds using
10. Density Functional Methods, CSIR, New Delhi Rs. 14 Lakhs, PI: Dr. A S Chaudhari
11. Theoretical study of cometary molecules: A quantum chemical approach, ISRO, Bangalore, Rs.7.08 lakhs, PI: Dr A S Chaudhari
12. Project entitled Synthesis of Zeolite from environmentally detrimental fly ash is sanctioned by University (Amount 95,000/-)
Dr. Mrs. M. P. Mahabole

Awards/Honours/Fellowships:

- Shri. A. V. Sarode has received FIP Fellowship of UGC.
- Research students working under the guidance of Dr. M. K. Patil have received Best Paper Presentation award in the National Conference on Helio Physics held at Dayanand College, Solapur.

Dr. R.N. Mane, stayed in Korea for 21 days during research collaboration and MoU with Hanyang University Korea.

Dr. A.C. Kumbharkhane, has participated in International conference at Ukraine, during 21-24th May, 2010.

Dr. A.C. Kumbharkhane, has been awarded a project from DST, New Delhi with an outlay of Rs. 3.0 lakhs.

Dr. M. K. Patil, has presented a paper in Pandit Ravishankar Shukla University, Raipur.

Dr. M. K. Patil, has presented a paper entitled The Sun: Its Structure and Evolution in National conference organised by Dayanand College, Solapur.

Dr. M.P. Mahabhole has been awarded a project entitled Study of gas sensing properties of ecofriendly zeolite synthesized using environmentally health hazardous fly ash from DST, New Delhi.

Dr. M.P. Mahabhole has presented a paper entitled "Nanotechnology and biosensors" in International Conference organised at Vishakhapatnam.

Dr. A.S. Choudhary has presented a paper in International Conference on Advanced Nanomaterials and Nanotechnology at IIT Guwahati.

Dr. R.S. Mane along with 12 students of M.Sc. second year participated in Conference on Smart material, Sakri March 2010

Shri. Vaghshette, Pandge, Pawar and Kyadampure under the guidance of Dr. M. K. Patil has presented a paper in National Conference at Dayanand College, Solapur and were awarded first and second prize for their presentations.

Shri. Mahadevappa swamy under the guidance of Dr. A.S. Chaudhary, has participated in International Conference at University of Toulouse, France in May 2010.

Shri. Vijay Kalamse under the guidance of Dr. A.S. Chaudhary, has been awarded second prize at Anveshan 2009 (Research Convention) held at Science College, Nanded.

School of Education

The School of Education has revised the syllabus of M.Ed. and M.PEd. during 2009-2010. The School has also started M.Phil. in Education. The School has proposed to start M.Phil. in Physical Education and M.A. in Education Science during 2010-2011 and it has got the necessary approval from the Academic Council of the University.

The School has organised "Yoga and Physical Education" a National Workshop and Three state level seminars.

Publication:

The faculty of the School has published 7 books and 5 Research Articles in journals of National repute.

Projects:

The faculty of the school generated 6 lakhs from major research projects and 2 lakhs from minor research projects.

Awards/Honours/Fellowships:

Dr. V. N. Patil has been awarded Best Teacher award by Maharashtra State Association of Secondary School Teacher Educator (MSSASSTE) in the annual convention at Patan, Dist. Satara.

Miss. S.Y. Patil has been awarded best research paper award in a state level conference.

Faculty Improvement:

Dr. S.K. Singh and Dr. A.P. Ginge have been awarded Ph.D.

Students Achievements:

Twenty three students of the school have qualified NET/SET Examination during the reporting period.

The students of Physical Education had a good exposure by participating in Intercollegiate and Interuniversity tournaments. The team of Swimmers of University has been declared as winner in Intercollegiate competition held at Nanded.

Rahul Sarode, Sangharsh Shringare and Abhijit Sarnaik presented papers in National Conference on Sports and Physical Education at Manav University, New Delhi.

Snehlata Lahane, Minakshi Todkar, Prerana Bhosale, Sarika Ubale, Rupali Akhare and Rajeev Munde participated and presented papers in state level seminar organised by Department of Education, Pune University on Learning Resources.

Shaik Sharif and Rajeev Munde participated and presented in National Seminar organised by Dr. BAMU, (sub campus) Osmanabad.

Educational Tour:

The students of the School have visited Indian Institute of Languages, Mysore, Science Museum, Historical Museum and Botanical Garden, Indian Institute of Science, Bengaluru Kamraj University, Madurai, Saraswati University, Rameshwaram (Tamil Nadu) and Swami Vivekananda Rock Memorial at Kanyakumari. They had visited the Departments of Education of respective University and had good interactions with students and teachers.

In Study tour of M.P.Ed., students visited Simla University, Indian Institute of Advanced Studies, Simla, Punjab University, NIS, Patiala etc.

School of Pharmacy

The School of Pharmacy is one of the newly established schools on the Campus, it has produced two batches of Students in Masters in Pharmacy and Masters in Pharmaceutical Chemistry. Of the 69 students 52 students have been absorbed in reputed Companies and 17 students have been appointed as Lectures in Colleges, which makes the School unique as it has 100% placement for all the students passed out. The School consists of 6 Assistant Professors. The faculty of the school has produced 42 Publications in Journals of National and International repute. The faculty of the school also made 66 presentations in seminars and symposia.

School of Language and Literature

The school of languages and literature offers master degree courses in English and Marathi. The school has initiated certificate courses in German and Chinese languages under Foreign language Center. The school has also initiated research courses like M.Phil. in Marathi and English. The school has revised the curriculum and introduced new syllabus for M.A. first year English and Marathi. The school has also made a innovative approach of introducing job oriented new papers like screenplay writing, Advertisement writing, Translation study, Proof reading and Marathi Grammar. Three faculty of the school Mr. Prithviraj Taur, Mr. Dilip Chavan, and Mr. P. Vitthal has been conferred on with Ph.D. degree. The school is actively engaged in research activities reflected by their contributions in projects and research publications.

Research projects

Dr. Prithviraj Taur's minor research project entitled "*Bharat shashane yenche sahitya : Ek Abyas*" funded by UGC is in concluding stage.

Shri. V. S. Anmulwad has been awarded a minor research project entitled "*Tribals of Nanded district: Society, culture and Literature*" from university funds.

Scientific Activity

The school has organised a seminar on "*The Importance of foreign Languages*".

A Round table conference has been organised by the school on the "*Dalit Studies*".

A State level "*Kavi Sammelan*" of eminent Marathi poets was organised.

A MoU has been signed by SRTM University and the EFL University, Hyderabad.

Awards/Fellowships/Honours:

Dr. Prithviraj Taur has received travel grants from the Sahitya Academy (National Academy of Letters), New Delhi.

Dr. P. Vitthal has received a shabdhangana literary award for his edited book entitled "*Vishaka Ek Parisheelan*".

Guest Lectures:

Organised guest lectures by Mr. Tulsi Parab, Dr. Vandana Sonalkar, Dr. Kamalakar Bhatt, Dr. Symon Barnebas and Dr. Rahul Pungilia.

School has organised a study tour to Osmania University, EFL University, Hyderabad and Ramoji Film City, Golconda fort and Zoo Park.

School of Mathematical Sciences

The activities carried out by the School of Mathematics during the reporting period of July 2009- June 2010 are as follows.

The School has successfully hosted 7 days workshop on CSIR-NET, SET and GATE etc.

The School has organised Marathwada Mathematical Society's (MMS) seminar completion

The School has planned to arrange NET/SET guidance in this academic year.

The students of the School are encouraged to participate in Research Programmes like Mathematics Training and Talent Search (MTTS), Visiting Students Research Programme (VSRP) and Summer Program in Mathematics (SPIM) etc. Organised by internationally reputed institutions like Tata Institute of Fundamental Research (TIFR), Harish Chandra Research Institute (HRI), Jawaharlal Nehru Center for Advanced Scientific Research (JNCASR), Bengaluru, Chennai Mathematical Institute (CMI) and several IIT's (Indian Institute of Technology) and IISER's (Indian Institute of Science and Educational Research). The School is also providing remedial coaching for weaker students.

Conclave:

Ten students and a faculty of the school have participated in 2nd science conclave, a congregation of Nobel Laureates at Indian Institute of Information Technology (IIIT), Allahabad.

Students Achievements:

In the very first year two students of the school got selected in SPIM programme of HRI, Allahabad

One of the students got selected for MTTS programme of National Board of Higher Mathematics (NBHM) at RIE, Mysore. This has brought laurels to the school and the University.

Students of the School have participated in programmes like ANVESHAN, MMS seminar competition and won prizes in the latter.

Faculty Achievement:
